## Who It Is For

---

-  Small apartment dwellers
-  Students in dorm rooms
-  Office workers with limited space
-  Kitchen with no fridge space
-  Home users needing extra storage
-  Those who want freezer and fridge

## Who It Is Not For

---

-  Large families needing big fridge
-  Those who need automatic defrost
-  Users with limited wall space
-  People needing high energy efficiency
-  Those who want smart controls
-  Users who need heavy-duty fridge

## Trade Offs to Consider

---

-  Manual defrost system
-  Limited storage for large items
-  No smart features or app control
-  Fixed shelf positions
-  Not energy-efficient for heavy use
-  Requires floor space for placement

## Users Say

---

### ● POSITIVES

- ✓ Good for small spaces
  - ✓ Easy to organize food
  - ✓ Looks modern in kitchen
  - ✓ Works well for drinks and snacks
  - ✓ Simple to use and clean
- 

### ● COMPLAINTS

- ⚠ Manual defrost can be inconvenient
- ⚠ Not enough space for large items
- ⚠ No cooling for long periods
- ⚠ Shelves are not very flexible
- ⚠ Consumes more energy than expected

## How It Compares

---

- Smaller than full-sized fridge
- Less energy-efficient than smart models
- No app-based controls
- Manual defrost instead of automatic
- Fewer shelves than larger fridges
- Not ideal for heavy usage

## Choose This If...

---

- ✓ Need fridge and freezer in small space
- ✓ Want simple and clean design
- ✓ Looking for affordable storage solution
- ✓ Need to store drinks, snacks, and small items
- ✓ Have limited wall or counter space
- ✓ Want easy-to-clean and organize

## Skip This If...

---

- ✗ Need large storage capacity
- ✗ Require automatic defrost system
- ✗ Want smart controls or app features
- ✗ Need energy-efficient model
- ✗ Looking for heavy-duty fridge
- ✗ Have limited floor space
