140 pounds for stable placement

Who It Is For

-  Need extra fridge space for entertaining
-  Want flexible storage for bulk shopping
-  Have garage or unused room for appliance
-  Looking for energy-efficient cooling
-  Need stainless steel for modern look
-  Want auto defrost to save time

Who It Is Not For

-  Need a built-in fridge for kitchen
-  Require large freezer-only unit
-  Looking for smart home integration
-  Need a compact countertop model
-  Require low energy consumption
-  Need adjustable shelves for specific items

Trade Offs to Consider

-  Larger size may take up more space
-  Stainless steel may show fingerprints
-  Auto defrost uses more energy
-  No smart controls for remote access
-  Heavier than standard models
-  Limited customization options

Users Say

● POSITIVES

- ✓ Great for extra storage in garage
- ✓ Easy to switch between fridge and freezer
- ✓ Looks modern with stainless steel finish
- ✓ Auto defrost saves time and effort

● COMPLAINTS

- ⚠ Heavier than expected for moving
- ⚠ No smart features for remote control
- ⚠ Limited shelf options for organization
- ⚠ Higher energy use compared to smaller units

How It Compares

- Larger than standard fridge for more storage
- More energy-efficient than non-certified models
- More versatile than single-mode units
- Less compact than countertop models
- More durable than plastic finishes
- More expensive than basic units

Choose This If...

- ✓ Need flexible storage for food or drinks
- ✓ Have garage or extra space for appliance
- ✓ Want modern stainless steel look
- ✓ Looking for auto defrost convenience
- ✓ Need reliable cooling in uncontrolled environments

Skip This If...

- × Require smart home integration
- × Need a compact countertop model
- × Looking for low energy use
- × Require large freezer-only unit
- × Need adjustable shelves for specific items
